For the month of April, the Ohio Valley Early Birds are going to tour the amazing private auto and truck collection of Mike Butler. After selling his very successful plumbing distribution business, Mr. Butler got serious about collecting American iron. In a relatively short amount of time, he managed to fill an entire factory in Erlanger, Kentucky with his growing collection. The vehicles are carefully arranged by era in spacious, well-lit surroundings. The collection ranges from early brass-era cars, through the classics of the 1920s and 1930s to muscle cars of the 1960s and 70s including three split window Corvettes. There is also a very thorough representation of vehicles from the fabulous 50's including some extremely rare, low production models. Featured in the collection are many orphaned marques such as Studebaker, Packard, Edsel, Pontiac, Crosley, Willys, Avanti and more. A special section of the complex is devoted to a wide variety of trucks. The collection is not open to the public, but occasionally Mr. Butler permits groups such as ours to visit. This is absolutely an event that you won't want to miss.

Following our private tour, we will drive a very short distance along Dixie Highway to lunch at Barleycorn's Five Mile House. Please see the next page for a map and complete driving directions.
