Ohio Caverns is recognized as “One of America’s most colorful caverns.” The caverns are the largest in the state, with approximately one mile of surveyed passages ranging in depth from 30 feet to 103 feet.

The Ohio Caverns staff go to great lengths to protect the delicate cavern environment so future generations can view the cavern as it is viewed today. The goal is to make sure Ohio Caverns remains known as one of Ohio’s premier outstanding natural attractions.

Dragonfly Winery

Following our cave tour, we'll drive to the Dragonfly Vineyard and Wine Cellar for a wine tasting and lunch. The Dragonfly winery is owned by Connie and Kent, friends of Cathy and Art.
